Application

 The BLS® socket can be used for pipes with welding beads that are secured against shearing by means of bolts. If a TYTON-SIT seal is used, for example, the fitting can also be used for all push-in socket pipes. The fittings are designed using the proven E3 gate valve technology. All BLS® valves and fittings are fitted with TYTON seals for water as standard.

Combi-4 BLS[®], PN 16

Material

- Housing

 Spheroidal graphite cast iron EN-GJS-400 (GGG 40)
 EWS coating according to GSK, RAL-GZ 662, coating thickness min. 250 µm
- Push-in sockets
 according to DIN 28603
- Seals
 EPDM
 - KTW and W 270 approval

Characteristics

- Operating temperature - max. 40 °C
- Pressure PN 16

Thrust protection

- Shearing protection bolt or clamping ring for pipe end without weld bead
- Shearing protections are not included in the scope of supply.

Caution

• Combination of BLS®-cross (No. 5477) and slider (No. 4027) , shear-protected connected, incl. socket protection.
