

Filter cartridge for aeration and ventilation valves

9875

Application

- Filtration system for all aeration/ventilation valves
- If a drip protection (2) is also mounted, the filter cartridge (1) must be installed horizontally.

Characteristics

- The filtration system removes the particles lesser than 1µm from drinking water!
- Filter body in INOX with water-resistant polyester filter
- Filter class E10 in accordance with EN 1822 and W4 water directive

Caution

- The filtration system must be checked once a year and replaced every two years to ensure the correct operation of all the fittings.
