

Ein-/Ausbaustück, PN10/16

7160

**Application**

- To compensate for any discrepancies in length

Characteristics

- Housing made of cast steel powder coated epoxy (colour RAL 5015)
- The threaded anchors including nuts are available as standard in galvanised or V2A (threaded anchor) and V4A special coated (nut)
- The pull protection is ensured by the threaded anchors with nuts

Material

- Rubber seal: EPDM (Nr. 7160900...)

Caution

- The compensation for the length of the chock/dismantling joint is always taken as +/- 25mm from the L dimension.
